

GOWTHAMI

MCA Graduate | Full-Stack Developer

Udupi, Karnataka | 9611872089 | gowthi1212@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

MCA Graduate from Manipal Institute of Technology with hands-on experience in full-stack development through a Software Engineer internship and technical projects. Skilled in Java, JavaScript, Python, React, Node.js, PHP Laravel, MySQL, and MongoDB, with a strong foundation in DSA, OOP, and REST APIs. Experienced in building responsive, database-driven applications with authentication and full-stack functionality.

SKILLS

Programming Languages: Java, JavaScript, Python, C++

Web Technologies & Frameworks: HTML, CSS, React, Node.js, Express.js, PHP Laravel

Databases: MySQL, MongoDB

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS, Operating Systems, REST API Development, JWT Authentication

Tools & Testing: Git, GitHub, VS Code, Jest, Supertest

EXPERIENCE

Software Engineer Intern — Udupi Web Solutions (Remote)

Jan 2026 – May 2026

- Built a Construction CRM System using PHP Laravel, MySQL, JavaScript, HTML, and CSS, following MVC architecture.
- Implemented role-based authentication and developed project management and client management modules.
- Optimized database operations to improve system performance and reliability.
- Conducted requirement analysis, testing, and debugging, and supported deployment following software development best practices.

PROJECTS

Sweet Shop Management System | [GitHub](#)

Node.js, Express.js, React, MongoDB

- Developed a full-stack Sweet Shop Management System with secure authentication and role-based access control using JWT.
- Built RESTful APIs and implemented inventory management with CRUD operations, sales processing, and stock management.
- Developed a responsive React-based user interface with search, filter, and real-time inventory updates.
- Followed Test-Driven Development (TDD) principles using Jest and Supertest to ensure application reliability.

Student Performance Prediction System | [GitHub](#)

Python, Flask, Scikit-learn, SQLite

- Developed a web application to predict students' final examination scores using academic factors such as study hours, attendance, previous scores, and assignment completion.
- Built an interactive analytics dashboard featuring prediction trends, score distribution charts, and historical prediction tracking.
- Implemented performance categorization, personalized study recommendations, search/filter functionality, and CSV export.
- Designed a responsive dark-themed UI with score gauges, feature contribution visualization, and real-time analytics.

Hospital Parking Management System | [GitHub](#)

PHP, MySQL, HTML, CSS, JavaScript

- Designed and implemented a full-stack web application for automating parking management operations.
- Developed features for vehicle entry, search, report generation, and parking category management.
- Improved operational efficiency through organized, database-driven data handling and responsive design.

EDUCATION

Master of Computer Applications (MCA)

Manipal Institute of Technology, Manipal

2024 – 2026 | CGPA: 8.26

Bachelor of Science (Mathematics, Computer Science)

Mahatma Gandhi Memorial College, Udupi

2021 – 2024 | CGPA: 9.5

PUC — Poornaprajna Pre-University College, Udupi

2019 – 2021 | 88.33%

SSLC — Karnataka Public School, Kokkarne

2019 | 84.5%

CERTIFICATIONS

- Responsive Website Basics: Code with HTML, CSS, and JavaScript — Coursera (Oct 2024)
- Linear Algebra for Machine Learning and Data Science — Coursera (Oct 2024)
- Introduction to MongoDB — Coursera (Mar 2025)
